DETAILED ACTION

1. This Office Action is the answer to the Amendment filed on June 19, 2007, which paper has been placed of record in the file.
2. Claims 1-10, 26-43, 60-66, 72-78, and 85-123 are pending in this application.

Election/Restriction

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-10, 26-43, 60-66, and 72-78 drawn to a method and system for offer for and extra credit line to the target customer group, classified in class 705, subclass 14.
 - II. Claims 85-123 drawn to a method and system for managing a financial account, classified in class 705, subclass 39.
4. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are directed to related processes. The related inventions are distinct if the (1) the inventions as claimed are either not capable of use together or can have a materially different design, mode of operation, function, or effect; (2) the inventions do not overlap in scope, i.e., are mutually exclusive; and (3) the inventions as claimed are not obvious variants. See MPEP § 806.05(j). In the instant case, the invention I drawn to a method and system for offer for and extra credit line to the target customer group, in contrast, the invention II drawn to method and system for managing a financial account. Therefore, the invention I and II are shown to be separately usable. Furthermore, the inventions as claimed do not encompass overlapping subject matter and there is nothing of record to show them to be obvious variants.

Art Unit: 3692

5. Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to examiner Nga B. Nguyen whose telephone number is (571) 272-6796. The examiner can normally be reached on Monday-Thursday from 9:00AM-6:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor Kambiz Abdi, can be reached on (571) 272-6702.
